12. Conclusion and recommendations

The results of the 2014 Business Trade and Service survey showed that there were in total 303,276 business establishments in Central region. Most of them (about 98.8 percent) were establishments with 1-15 persons. The major business was *retail trade, (except of motor vehicles and motorcycles)* accounted for 46.3 percent. Regarding persons engaged in business establishments, there were totally 945,072 persons. Of this number, about 463,756 persons were employees receiving the average annual remuneration about 127,462 baht per person. Moreover, the

business establishments contributed about 938,744.3 million baht of income, 723,200.8 million baht of intermediate consumption and 215,543.5 million baht of value added.

Comparing information of survey during 2009-2013, the results showed the operation of business establishments in the Central region was considerably growth. This was probably due to the increase in number of establishments, the employment and the remuneration. Nevertheless, the Thai economy in some period was slowdown due to the impact of unusual events, such as natural disasters, political unrest and global economic crisis, etc.
